MATERIÆ MEDICÆ:  
O R,  
A C A T A L O G U E  
O F

Simple Medicines

That are fit to be used in the Practice of  
PHYSICK and SURGERY.

CONTAINING

- I. The Officinal Name of each in LATIN, with the Accent and Genitive Case.
- II. A short Botanical Description of the SPECIES that is commonly used.
- III. The Name in GREEK and ENGLISH.
- IV. The PART that is most in USE.
- V. The NAMES of the DISPENSATORY, or SHOP-  
PREPARATIONS and COMPOSITIONS.

To which are Added,

TWO TABLES,

In the FIRST,

The Simple Medicines are reduced under general Heads.

And, in the SECOND,

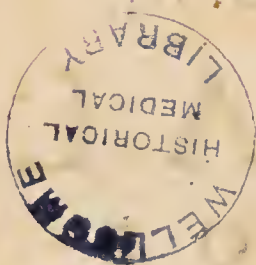

They are classed according to their Principal Vertues.

BOOKS Printed for GEORGE STRAHAN, at the  
Golden Ball, over-against the Royal Exchange, in Cornhill.

**T**Entamina Medico-Physica, ad quasdam Quæstiones, quæ Oeconomiam Animalem spectant, accommodata. Quibus accessit Medicina Statica Britannica. Authore *Jacobo Keil*, M. D.

Fluxionum Methodus inversa; five Quantitatum Fluentium Leges Generaliores. Ad celeberrimum Virum Archibaldum Pitcairnum Medicum Edinburgensem. A *Georgio Cheynæo*, M. D. & F. R. S.

Rudimentorum Methodi Fluxionum inversæ Specimina: Quæ Responsionem continent ad animadversiones *Ab. de Moivre* in Librum *G. Cheynæi*, M. D. S. R. S.

Introductio ad veram Astronomiam, seu Lectiones Astronomicæ habitæ in Schola Astronomica Academiæ Oxoniensis. Authore *Johanne Keil*, M. D. Astronomiæ Professore Saviliano, R. S. S. Editio secunda, auctior & emendatio.

Introductio ad veram Physicam, seu Lectiones Physicæ, eodem Authore.

*Myographiæ Comparativæ Specimen*: Or a Comparative Description of all the Muscles. Shewing their Discoverer, Origin, Progress, Insertion, Use and Difference. To which is added, An Account of the Muscles peculiar to a Woman, with an Etymological Table, and useful Indexes. By *James Douglas*, M. D. and F. R. S.

Essays on several Parts of the Animal Oeconomy, viz. I. Of the Quantity of Blood in the human Body. II. Of the Velocity of the Blood. III. Of the Force of the Heart in driving the Blood through the whole Body. IV. Of Animal Secretion. V. Of Muscular Motion. The second Edition, corrected and enlarged. By *James Keill*, M. D.

The Art of Curing Venereal Diseases explain'd by Natural and Mechanical Principles. By *Nicholas de Blagny*, Chirurgion to the French King.

The Symptoms, Nature, Cause and Cure of a Gonorrhœa. The third Edition. By *W. Cockburn*, M. D. F. R. S. and of the College of Physicians.

Sea Diseases, Or a Treatise of their Nature, Causes and Cure. Also an Essay on Bleeding in Fevers; shewing the Quantities of Blood to be lett in any of their Periods. The second Edition, much improv'd; by the same Author.

*Præfagium Medicum*: Or the Prognostick Signs of Acute Diseases; establish'd by ancient Observation, and explain'd by the best modern Discoveries. The second Edition, with a Preface by Dr. *W. Cockburn*.

An Essay of the true Nature and due Method of treating the Gout. Together with an Account of the Nature and Quality of Bath Waters, the manner of using them, and the Diseases in which they are proper: As also of the Nature and Cure of most Chronical Distempers not publish'd before. By *Geo. Cheyne*, M. D. and F. R. S. The fifth Edition enlarg'd to more than double the former.

A new Theory of Acute and Slow continued Fevers: Wherein, besides the Appearances of such, and the manner of their Cure, occasionally, the Structure of the Glands, and the Manner and Laws of Secretion, the Operation of Purgative, Vomitive and Mercurial Medicines are Mechanically explain'd. To which is prefix'd an Essay concerning the Improvements of Medicine. By the same Author. The third Edition, with many Additions.

TEREBINTHINA Vulgäris, seu communis, vid. *Pinus Sylvestris*.

TERRA JAPONICA, vid. *Palma*, cujus fructus, *Faufel*, dicitur.

Comfrey.

Radix, Folia, Flores.

Conserv. Rad. & Florum, Syrup.

T.

The Mole.  
Camarisk.

Animal integrum.  
Cortex, lignum,  
Summitates, seu folia.

Talpa Incinerata.

The Camarind  
Tree.

Fructus contusus,  
raro Siliquæ integra.

Pulpa è filiquis exempta,  
abjectis nucleis.

The West India  
Camarind.  
Cassie.

Pulpa.  
Folia cum Floribus  
& Seminibus.

The Bull.

Sevum, Fel, Lapis  
è Felle.

Opine.

Folia.

Turpentine Tree.

Resina, Terebinthina  
vera, dicta.

Balsamus Terebinthin.  
colophonia.
